

PSYCHIC ATTACK OR KARMIC BURN-OFF?

Q: Some ECKists have reported that a person is attacking them on the inner as well as affecting their physical lives. I can talk to them about protection techniques and strengthening themselves, but I feel I must do what I can to protect them too. What may I do and not break spiritual laws?

A: The inner is the inner, and the outer is the outer.

In the day-to-day world, I seldom act upon complaints of how other people think or believe. But I do step in when harmful ideas and beliefs become acts that do physical harm to others.

You can safely lend an ear to ECK initiates who feel they are victims of psychic attack. Continue to give them protection techniques. **Remind them to fill their hearts and minds with love, then have them turn the matter over to the MAHANTA.** There are indeed psychic delinquents loose in society, but often the psychic disturbance is within the supposed victim, who is unaware of his own karmic burn-off.

So deal only with the destructive behavior on the outer in the ECK community. Let the MAHANTA take care of the inner side.
